Cooperative Extension System Personnel in Forestry & Wood Products

This directory contains educators and specialists who, collectively cover 48 areas of specialization in forest and wood products, and 16 areas of specialization in Extension program development, delivery, and evaluation. It was compiled from information voluntarily provided by educators and specialists themselves. Thus, it may be incomplete. Also, staffing and program responsibilities change frequently, therefore the directory is complete and accurate only to the extent that information was available at the time of compilation. A more up-to-date, searchable directory can be found at efwpdirectory.sref.info where you can search records by name, state, and area(s) of specialization. This online resource has been developed by the office of the Southern Regional Extension Forester with financial and technical assistance from the USDA NIFA.

Please forward any errors or omissions so that we can maintain a directory that is as accurate as possible. All information should be sent to:

Dr. Eric R. Norland, CF #2895
National Program Leader, Forest Resource Management
USDA - National Institute of Food and Agriculture

Phone: (202) 401-5971

Extension Forestry

United States Department of Agriculture
National Institute of Food and Agriculture

NIFA Mission: To advance knowledge for agriculture, the environment, human health and well-being and communities

Southern Regional Extension Forestry (SREF) is a diverse team of trained natural resource educators, IT specialists, graphic designers, communications and marketing experts, and media and content producers. SREF works closely with the Southern Land Grant University System, US Forest Service, and state forestry agencies to develop content, tools and support for the forestry and natural resource community. To find out more about SREF programs please visit www.sref.info.
